Summary — QA Lead with 9+ years of experience in automation, UX research, and award-winning edtech product work. TED-Ed author (9.5M+ views) and illustrator of two NYT bestsellers. Spent a decade at The Concord Consortium building data-science education products through QA automation, UX research, and educator-centered design. Currently embedding testing practices and Playwright automation at an edtech nonprofit national data trust.

Experience

CredLens — Remote **2026–Present**
QA Lead

- Built a [750+]-test Playwright/TypeScript end-to-end suite, stabilizing and securing it before integrating it into CI so it runs on every pipeline run; partnered with an external consultant to add automated accessibility testing.
- Led a QAOps initiative to document the full CI/CD pipeline, producing build-flow diagrams that drove backlog refinement and retro discussions on where QA fits in the pipeline.
- Served as sole QA across 5 developers, keeping turnaround fast enough to support confident, on-schedule releases.

The Concord Consortium — El Cerrito, CA (Hybrid) **2016–2025**
QA Engineer *May 2023–July 2025*

- Cut the QA cycle by 25%+ after staff reduction (4→1) by expanding the Cypress CI suite using AI-assisted tooling and formal acceptance criteria; authored 700+ automated tests in 6 months and maintained 98% release reliability.
- Improved accessibility and reliability of AI-enabled data-science tools by delivering WCAG-aligned updates, strengthening test coverage across teams, and validating changes directly with classroom educators.

Project Manager, Research & Evaluation (NSF-Funded Initiatives) *Mar 2016–May 2023*

- Coordinated research, curriculum, and engineering teams across 15+ NSF-funded data-science initiatives with 20+ partner institutions, ensuring alignment between research goals and product delivery throughout multi-year cycles.
- Managed scope, weekly check-ins, risks, and release planning for 3 major projects and 20 GitHub repos, maintaining over 90% reliable delivery and keeping interdisciplinary teams informed and unblocked.

TED-Ed — Remote **Mar 2014–Apr 2015**
Content Producer, Math & Science

- Wrote and produced animated math lessons integrating art and mathematics; reached 9.5M+ learners, with adoption in 2,000+ classrooms and ongoing use in teacher-developed learning sequences.

Countryside School — Champaign, IL **Aug 2008–May 2014**
Math Educator / Middle School Coordinator

- Led a 13-person teaching team; designed inquiry-based curriculum for 60 gifted math students and contributed to Math Circles, AwesomeMath, and MATHCOUNTS problem writing and coaching at state and national levels.

Education

Harvard Graduate School of Education **2015**
Ed.M., Technology, Innovation, and Education
Scripps College **2006**
B.A., Mathematics and Studio Art

Publications & Honors

- Best Long Paper Award, International Society of the Learning Sciences (ISLS), 2024
- TED-Ed Author (9.5M+ views); Best TED-Ed Lesson of All Time
- Co-author, *The Art of Mental Calculation*; Illustrator of NYT bestsellers *Secrets of Mental Math* and *The Magic of Math* by Dr. Arthur Benjamin at Harvey Mudd College

Skills

Product Release Coordination, Roadmapping
Research Usability Testing, Mixed Methods
EdTech Educator-Centered Design, Teaching
QA Manual Testing, Documentation
Code Test Automation, Javascript, VS Code
Tools Slack, Jira, GitHub, LLM Tools
